Together Bringing Hope to Children & Families

Beautiful Gate South Africa believes in a community of justice and mercy that supports strong families to raise thriving children.

Our response to COVID-19

Our track record

For more than 25 years, Beautiful Gate South Africa (BGSA) has met the evolving developmental needs of the community of Lower Crossroads and Philippi.

Starting as a residential home for children orphaned by HIV, the organisation has steadily shifted its focus as the circumstances of its constituency changed.

Today, its targeted approach to community development includes:

- Child and Adolescent Health
- Family and Community Strengthening
- Education: Primary and Secondary

Strengthening the local government clinic to provide appropriate child and adolescent services through medical expertise and youth treatment and support clubs.

Child Health

Providing social work support to assist children and families to access government social grants, short-term nutritional support, and psycho-social developmental and therapeutic services.

Family Strengthening

Improving educational outcomes in primary and high schools, while addressing social and other developmental needs for vulnerable children.

Education

Our response

Agility and the ability to adapt to a changing landscape have become two of the differentiators of BGSA.

As the threat of COVID-19 lockdown loomed, BGSA took a proactive stance and began fundraising for education and nutrition parcels to help its impoverished beneficiary base through this unprecedented crisis.

Strong partnerships with government and change-makers are making it possible for the organisation to continue to evolve and respond to the new needs created by the COVID-19 pandemic.

In partnership with health authorities, the BGSA site has been set up as a **base for community screening and testing for COVID-19.**

A container pharmacy has also been set up.

The HIV Clinic continues to see regular cases.

Child Health

Food parcels have already been distributed to **660 vulnerable children.**

A second round of food support is planned in the coming days, expanded to 715 vulnerable families, amounting to almost 2,000 people.

Family Strengthening

1,845 learners received educational support packs before lockdown began. Where households have access, we are sharing data-free digital resources and communicating via WhatsApp. We are also currently printing worksheets and educational packs.

Education

Partner ♥ Prevent ♥ Protect ♥ Provide ♥ Pray

How you can help

Please consider **partnering** with us, as we continue to seek ways to prevent the spread of the Coronavirus, and **protect** and **provide** essential services to thousands of children and adults in our programmes and community.

Feed a child
for just
R20
per day

Supply a PPE kit
for a community
worker
R100

Support a
child's
education
R150

Provide a
family food
parcel for
R550
